Day 1: Desert Quiver Camp, Sesriem

Sesriem

As there is no accommodation at Sossusvlei, visitors to this desert wilderness are likely to end up staying at Sesriem, 65 kilometres away, where camps and lodges serve as a base from which to explore the dunes. Sesriem Canyon, a deep chasm carved through the rocks by water, is a striking natural feature of the area that is best explored on foot. Stony walls rise up sharply on both sides of the canyon, while birds roost in its crags and lizards dart along the ledges. The canyon's name was coined when early settlers used it as a water source, using six lengths of leather ('ses riem – six thongs) tied together to lower buckets into the water at the base of canyon.)

Day 2: Desert Quiver Camp, Sesriem

Day Itinerary

Dune 45; 4x4 shuttle to Deadvlei; Sesriem Canyon

Activities

Dune 45

Named for its location 45 kilometres past the town of Sesriem, Dune 45 is renowned for its elegant shape, which – along with its position close to the road – have earned it the distinction of 'most photographed dune in the world'. If you're not keen for the strenuous hike to the top of Big Daddy, Dune 45 is a more forgiving alternative, standing at only 80 metres and featuring a much gentler gradient.

Dead Vlei

This ancient clay pan was once an oasis, studded with acacias and fed by a river that suddenly changed course, leaving the earth to dry up along with the trees it previously supported. So dry were the climatic conditions that the trees never decomposed – instead they were entirely

leached of moisture so that today, 900 years later, they remain as desiccated, blackened sentinels dotting the pan's cracked surface. Surrounded by the red-pink dunes of the Namibia Desert, they create a surreal spectacle that is a photographer's dream.

Sesriem Canyon

Sesriem Canyon is a captivating natural wonder located in the heart of the Namib Desert in Namibia. Carved over millions of years by the Tsauchab River, this narrow gorge is a testament to the power of erosion. The name Sesriem comes from the Afrikaans and Dutch words for six leather straps, which early pioneers used tied together to draw water from the deep pools within the canyon. Sesriem Canyon is not only a geological marvel but also a haven for unique desert flora and fauna, making it a popular stop for tourists exploring the surreal landscapes of the Namib Desert.
