## How Nomad Gives Back

At Nomad we pride ourselves as a company that supports our local communities as well as continent. Not only do we completely re-invest in Africa, our ethos entails looking at the smaller communities and helping where possible. This ultimately lead to the creation of the Nomad African Trust, enabling us to do so much more.

- Nomad is taxed in Africa and almost all our revenue is spent across many companies and communities throughout the region.
- All our staff are Africans.
- Nomad has trained, mentored and moulded hundreds of African lives in order to forge better lives for themselves and their families.

### Nomad - External Initiatives

#### The Nomad African Trust

Founded in 2008, the Nomad African Trust is a non-profit organisation that aims to preserve and uplift the people, places and animals of Africa. The Trust provides assistance that see real, measurable change and long-lasting benefits.

#### Pledge A Tree

The Trust has partnered with Greenpop Foundation's Forests for Life programme. Together we restore degraded forests and woodlands, protect vital catchment areas, and uplift the local communities.

#### Jars of Hope

The Trust has partnered with Taste + See. One of their core programs is their upliftment program which supplies Jars of Hope - a nutritious mix of food containing 4 meals per jar.

### Nomad - Inside The Company

#### Paper, Glass & Other Recycling

We continue to pursue the goal of being a paperless environment in the near future. We recycle all paper, glass, metal and other items that can be recycled.

#### Solar Power

Nomad has invested in getting off the grid entirely, massively reducing our energy requirements by investing in a large solar plant. This will have a large impact on our future energy usage.

### Nomad - The Tours

#### Water Purification

Most of our vehicles are supplied with water filtration systems that we ask our guests to use to avoid the purchase of plastic bottles. This reduces the plastic usage on tour by many thousands of bottles.

#### Suppliers

Nomad chooses it's suppliers carefully. We vet all our providers to ensure, as best as possible, that they agree and follow our principles of minimum impact and giving back to Africa.

### Nomad - What You Can Do?

#### Green Seats

Nomad was the first African operator who offered you the opportunity to purchase a "Green Seat" to offset personal tour carbon footprint. A low-cost initiative with great impact.

#### Suitcase Project

The latest Trust initiative. This project invites our guests to bring along useful items in their luggage when travelling to Africa. Simple contributions like clothes, books or stationery can make a big difference. Collection points will be available at all major Nomad starting locations.

#### Spread The Word

Nomad is committed that our operation benefits the people of Africa. Your word of mouth is core to our continuing operation and helps make sure money lands up where it is needed most - on the ground.

The contrasts of the Namib Desert and Okavango Delta give way to the grandeur of the Great Zimbabwe's Ruins and the Kruger's dense wildlife, creating a varied and thrilling itinerary.

## Cape Town to Johannesburg

### Week 1: Southern Namibia

From Cape Town, drive through the scenic Cederberg region with a stop at a traditional Padstal. Travel north through Namaqualand's desert landscapes to the Orange (Gariiep) River, where you can canoe its channels. Visit Africa's largest canyon, Fish River Canyon, and walk along its rim before continuing to Keetmanshoop. See the Quiver Tree Forest and Giants Playground, a surreal gateway to the Namib desert.

In Namib-Naukluft National Park, climb Dune 45, wander Deadvlei, and explore Sesriem Canyon. A guided desert walk offers insight into this arid yet thriving ecosystem before crossing the Tropic of Capricorn and arriving in Swakopmund. With German architecture and a coastal setting, the town offers optional adrenaline activities and sightseeing.

### Week 2: Etosha to Maun

Heading north for a stop at the Lichen Fields before hiking Brandberg to view ancient rock paintings. A true highlight, Etosha National Park welcomes us to its expansive salt pans and varied woodlands, bringing memorable game drives at its famous watering holes. We then head to Divundu where we revel in a tranquil boat cruise along the Kavango River. Crossing into Botswana, we overnight at Maun, the entrance into the Okavango Delta.

### Week 3: The Okavango Delta & Victoria Falls

Heading to the Khwai Conservation Area, you'll immerse yourself in the nature around you. Paddle upon the Delta's waterways on a traditional Mokoro excursion before wandering Moremi Game Reserve for a day full of wildlife encounters. We move on to Nata via its salt pans and journey to the Chobe River, where an afternoon cruise delivers remarkable sightings of elephants and hippos. You'll then arrive at Victoria Falls. Choose from a platter of adventure activities before the week ends at Hwange National Park, Zimbabwe's premier safari location.

### Week 4: Zimbabwe & the Greater Kruger Area

At Hwange, enjoy classic safaris in this rich wildlife haven and visit the Painted Dog Centre, showcasing vital conservation of wild dogs. In Matobo National Park, spot wildlife among striking granite outcrops before exploring the Great Zimbabwe Ruins, a remarkable 11th-15th century kingdom.

Heading south, visit the Kaoxa Rock Art Shelter near Mapungubwe National Park and join a guided tracking excursion in Mapesu Private Game Reserve. Continue through Kruger National Park via Phalaborwa, with sunset game drives and morning bush walks, before reaching Timbavati, a conservation area sharing unfenced borders with Kruger.

## Cape Town to Johannesburg

### Week 1: From Cape Town to the Namib Desert

Starting in Cape Town, we travel north to the Cederberg Mountains, stopping at a traditional "padstal" and admiring rooibos-rich landscapes, dramatic rock formations, and ancient San rock art. Passing through wildflower-strewn Namaqualand, we camp beside the Orange River, with optional canoeing for adventurers.

Swakopmund offers a mix of adrenaline activities and German-inspired cafés. We continue north via the eerie Lichen Fields and hike to the White Lady rock painting in Brandberg.

### Week 3: Etosha and the Kavango-Zambezi Region

Entering Etosha National Park, we spend two days tracking wildlife around the salt pans and savannas. From here, we travel to Divundu, on the edge of the Kavango River. A boat cruise offers a peaceful contrast to the game-rich Mahangu National Park. Crossing into Botswana, we overnight in Maun before heading into the Okavango Delta for two nights of mobile camping and game viewing in the Khwai and Moremi reserves.

### Week 4: From the Delta to Victoria Falls

After rejoining our truck, we pass the salt pans en route to Nata, then head to Chobe National Park. A boat safari here brings close encounters with elephants along the river. Crossing into Zimbabwe, we reach Victoria Falls. Optional activities, scenic flights, or relaxing café visits fill your days here. Your final two nights can be spent in either Victoria Falls or Johannesburg (flight not included).

### Week 5: Eswatini to Mozambique

Travelling through Mpumalanga, we visit Eswatini's Mlilwane and Hlane Game Reserves, known for excellent wildlife viewing and local culture. Then it's on to Mozambique's Indian Ocean coastline. From Xai Xai to Vilanculos and Magaruque Island, we snorkel vibrant coral reefs, sail traditional dhow, and relax on pristine white beaches. Barra Beach and Tofo offer more chances to unwind or dive with manta rays in clear, warm waters.

### Week 6: Maputo to Kruger and the Panorama Route

We explore Maputo, enjoying its markets and Portuguese colonial architecture before heading back into South Africa to Kruger National Park. Epic game drives offer many chances to spot the Big Five. The next day is spent admiring the Panorama Route, including Bourke's Luck Potholes and the viewpoint at God's Window. Pricho

Encounter the critically endangered Mountain Gorillas up close on an unforgettable guided hike through the forest. This remarkable adventure also includes a chimpanzee trek and a scenic boat cruise to witness the thundering power of Murchison Falls in all its dramatic splendour.

### Kampala to Kampala

**Day 1: Masindi - Murchison Falls National Park**  
We meet the crew and begin our journey toward Uganda's most iconic reserve, Murchison Falls National Park. Here the Nile, one of the world's greatest rivers, is forced through a rocky gap only seven meters wide before crashing into a turbulent pool below. Known locally as Kabarega Falls, this thundering cascade is the park's highlight and a fitting introduction to Uganda's wild beauty. After checking into our lodge in Masindi, our guide provides an evening briefing on the adventures ahead.

**Day 2: Budongo Central Forest Reserve**  
Today we venture into Budongo Forest, East Africa's largest mahogany forest and home to Uganda's largest chimpanzee population. With a specialist guide we trek in search of these primates, whose calls echo through the canopy. Later we enjoy a boat cruise on the Nile, where hippos, crocodiles, and abundant birdlife line the shores. Because chimp permits are limited to 12 per trek, larger groups are divided between morning and afternoon, so activities may alternate.

**Day 3: Lake Kikorongo**  
Heading southwest, we approach Queen Elizabeth National Park. Our overnight lodge sits high on a ridge overlooking Lake Kikorongo, offering sweeping views across the savanna.

**Day 4: Lake Bunyonyi**  
Crossing the Equator again, we descend into the lush highlands surrounding Lake Bunyonyi. Dotted with islands and framed by terraced hillsides, it provides a peaceful base as we prepare for gorilla trekking. Tonight we receive a full briefing.

**Day 5: Gorilla Trekking (Lake Bunyonyi)**  
Few experiences rival the chance to see mountain gorillas in their natural habitat. With only about 650 left, each visit contributes to their protection and supports community initiatives that safeguard their future. Gorilla ranges cross Uganda, Rwanda, and the DRC, so treks may occur in different parks depending on permit availability. Wherever the encounter takes place, the experience is extraordinary.

**Day 6: Lake Bunyonyi**  
Only one trek is undertaken, yet two days are allowed for permit flexibility. On your free day you may explore the lake by canoe, hike local trails, or try mountain biking.

**Day 7: Lake Mburo**  
We travel to Lake Mburo National Park, a small but diverse reserve of rolling hills, savannah, acacia woodland, and wetlands. With more than 350 bird species, including the rare shoebill stork, it is a true birdwatcher's paradise.

**Day 8: Kampala**  
Our journey ends with a return to Kampala, crossing the Equator once more before reaching the capital, where this unforgettable adventure concludes.
